

x	0	1	$+\infty$
Variation de \mathcal{A}	 <p>The diagram illustrates the variation of \mathcal{A} across the range of x. It features a central value of 1. Two arrows originate from below this central value: one points diagonally up and to the left, and the other points diagonally down and to the right. This suggests that the variation of \mathcal{A} is non-monotonic, reaching a peak or a specific state at $x=1$.</p>
